RESIDENTIAL EXTERIOR PAINTING SERVICES ACROSS ETOBICOKE AND THE GTA.

Mariposa is the service provider to call when you need exterior painting, or any type of decorative design for that matter. We've been around for over 60 years now, making customer satisfaction a priority.

Your house painting project isn't just a matter of personal preference. In many cases, it's also a necessity to maintain the value of your home. Mariposa consistently strives to "Make A Measurable Difference."

We're not just another experienced painting company in the GTA areas, we're a local leading service provider. Don't settle for anything less than the best when it comes to your exterior painting.

While interior painting, or even exterior painting for that matter, are not tasks you should do yourself, you should still be familiar with the process involved. There's nothing wrong with wanting to improve your own home, however you should leave it to the professionals.

- Most surfaces will need to be cleaned. Before painting, you'll need to start with a clean surface. Otherwise, your painting will trap dirt and make it look like blemishes, as well as fail to adhere to the surface properly.
- This also makes it easier to find damaged areas, which is the next task to take care of. The next step is repairing damaged surfaces. This improves the quality of the surface, although also means you won't have to deal with it at a later date.
- Our painters will then remove old, loose paint, and caulk trim. After that, it's about protecting doors, windows, and lights, plus other immovable outdoor details like shrubbery. All of this preparation is why this project is much more intensive than most people realize.
- Then after, the interior painting begins followed by trim painting. Once completed, it's about cleanup work.

Get ready to change your home interior surfaces. For optimal results for your interior painting project in Etobicoke or somewhere across the Greater Toronto Area, rely on Mariposa.
