## Introduction

For generations residential and commercial property owners/renters including, government, architects and builders have relied on painting and decorating services from Mariposa and the reliable products that the company uses by Sherwin-Williams. Your home, or your office, or factory, the machine shop you work in, the car assembly line you work on, the airport or seaport you travel through, or the timber deck you entertain on, or as you lay back on, and relax at the cottage, no matter where, Mariposa's services and Sherwin-Williams products are often there doing their task. At Mariposa, our range of services include residential and commercial painting and decorating, industrial design and painting, marine and infrastructure design and painting, and wood care treatment and staining.

Mariposa has always been committed to understanding the needs of its clients and as a result, has developed market-leading solutions in a wide range of construction building, and residential and commercial property improvement categories. Investment in high-performance painting techniques and construction equipment, and decorative applications and programs for research and development, and any other technology that enables the company's competitive advantage and overall success.

The products that Mariposa uses are produced to the highest quality, and demonstrate that the company is committed to delivering the best result for clients. Mariposa Painting & Decorating Canada is a division of Mariposa Group Canada, which was established in Etobicoke back in 1962. Mariposa is a leading painting and decorating service provider that offers premium branded products such as Sherwin Williams Paints & Stains that enhance, protect and maintain the places and spaces in which people live, work, and use.

At Mariposa, we assist our clients across the entire spectrum of trade services, in fact, the largest among any other painting and decorating companies currently operating in the Greater Toronto Area and southern Ontario. At Mariposa, we welcome you to learn more about our abundance of service and product offerings at: [mariposacanada.ca](http://mariposacanada.ca)

[mariposacanada.ca](http://mariposacanada.ca)

Exterior Residential Paint that we most rely on and recommend.

At Mariposa, we mostly use Emerald, Flex Temp, SnapDry, Rejuvenate, Resilience, and SuperDeck by Sherwin-Williams for all exterior home surfaces.

[mariposacanada.ca](http://mariposacanada.ca)

THE BEST OF SHERWIN-WILLIAMS FOR YOUR EXTERIOR HOME SURFACES.

To ensure a quality, long-lasting sense of beauty, we at Mariposa depend on Sherwin Williams to enable us to deliver the best result. For best performance, efficient paint and proper preparation is critical. We share our recommendations during the consultation appointment for the best exterior paint coatings to use based on your project and environmental conditions.

[mariposacanada.ca](http://mariposacanada.ca)

## Emerald by Sherwin-Williams

Best overall performance

Emerald® Exterior Acrylic Latex and new Emerald® Rain Refresh™ Exterior Acrylic Latex offer best-in-class overall performance in exterior paints. Its exclusive cross-linking 100 percent acrylic technology provides exceptional durability and hide, and offers extreme resistance to blistering, peeling, chalking, and dirt collection.

In 2020, Sherwin-Williams introduced Emerald® Rain Refresh™ Exterior Acrylic Latex with Self-Cleaning Technology™. This new ultra-durable coating is formulated to shed dirt upon rain or water contact, minimizing maintenance.

In addition, Emerald Rain Refresh can be tinted in VinylSafe® paint colors, formulated to resist warping or buckling when applied to a sound, stable vinyl substrate.

# PAINT FOR THE WALL THAT HAS EVERYTHING.

Sherwin-Williams presents our single greatest work,  
new Emerald<sup>®</sup> paint.

**mariposa**  
**painting &  
decorating**

Mariposa offers Emerald Paint products to its customers at a considerable discount.

Flex Temp by  
Sherwin-Williams

# FLEX TEMP SHERWIN-WILLIAMS

Best choice for painting in extreme temperatures.

---

Another new product for 2020, FlexTemp™ Exterior Latex is formulated with Extreme Temp Technology® that adapts to temperature extremes so you can paint down to 35°F (1.7°C) or up to 120°F (48°C) with no need to adjust application techniques or add extenders. FlexTemp offers excellent flow and leveling in extreme conditions, extending the painting seasons for pros working at these temperatures. It is available in more than 1500 colours including VinylSafe® paint colours.

Resilience by  
Sherwin-Williams

Best choice for moisture resistance.

# RESILIENCE SHERWIN-WILLIAMS

Resilience® Exterior Acrylic Latex with MoistureGuard™ Technology resists moisture quicker than standard exterior latex coatings and has improved resistance to early dirt pickup. Exteriors newly painted with Resilience develop resistance to moisture in as little as one hour, rather than the four-hour minimum most coatings require. Therefore, you can paint later in the day with confidence and less concern about dew or impending rain.

Resilience can also be tinted in VinylSafe® paint colours.

Resilience and  
Duration by  
Sherwin-Williams

EXCELLENT QUALITY AND  
RELIABLE FOR EXTERIOR  
PAINTING PROJECTS.

## DURATION

Exterior Acrylic Latex Paint

**BEST CHOICE FOR EXTERIOR DOORS**

**SNAP DRY**

**SHERWIN-WILLIAMS**

SnapDry™ Door & Trim Paint is another innovative coating that will help you turn projects faster. Since it dries in a fraction of the time of other trim paints, it will help you increase efficiency and reduce downtime.

Snap Dry by  
Sherwin-Williams

Revitalize and restore back to new  
and elegance.

# SNAP DRY SHERWIN-WILLIAMS

**SNAP DRY**

Interior Acrylic Latex Paint

**SNAP DRY**

Exterior Acrylic Latex Paint

# Sherwin Williams

# Rejuvenate

Best choice for severely weathered siding.

Rejuvenate™ Siding Restoration Coating is a high build coating ideal for application to sound, marginally prepared, deteriorating, and peeling siding and trim.

Its SmoothFill Technology™ enables aged and weathered siding a uniform appearance, offering dependable bonding and a smoother finish compared to applying a traditional paint and primer over less-than-perfect surfaces.

**REJUVENATE**

### Sherwin-Williams Harmony Interior Acrylic Latex, Zero VOC

Sherwin-Williams Harmony Interior Acrylic Latex, Zero VOC, is a zero VOC formula that helps reduce common indoor odors from pets, cooking and smoke to help rooms stay fresher, and longer. Harmony contains new technology that helps improve indoor air quality by reducing VOC levels from potential sources like carpet, cabinets and fabrics. It also gives walls a washable, and durable finish. This acrylic paint is GreenGuard Indoor Air Quality Certified and GreenGuard Certified for Children and Schools. The length of time Harmony actively reduces odors and formaldehyde depends on the concentration, and the frequency of exposure and the amount of painted surface area.

## Hospitals and Medical Clinics

Canada's healthcare sector depends on Mariposa's painters and decorators, and our experts depend on Sherwin-Williams Paints to assist in a major way to deliver the results that pleasantly exceed expectations time and again.

SHERWIN-WILLIAMS

**At Mariposa we take the utmost precaution, we apply attentiveness, astuteness, and we are the ultimate professional painters and decorators that the healthcare sector can most trust in and rely on to deliver the best result.**

Why Mariposa depends on ecologically efficient paint products by Sherwin-William.

Sherwin-Williams enables Mariposa to feel at ease when depending on its ecologically efficient paints with the unveiling of its reformulated Harmony Interior Paint with "Formaldehyde Reducing Technology,". The new Harmony paint contains zero volatile organic compounds, or VOCs, in both its base coat and the colorants that are added at the point of purchase. Harmony is among the first paint products that also has special properties designed to reduce VOCs already present in the space from carpet, cabinets, and other building materials.

Beyond its formaldehyde fighters, the Harmony formula contains anti-microbial properties that prevent mold and mildew and an odor reducing technology that eliminates the smell during application and drying.

# Mariposa's Quality Assurance.

## **Andrea Trubetskoye**

Senior Vice President and Chief Operations Officer of Mariposa Group Canada Ltd.

### **The "Offering of Exceptional Products and Services" PHILOSOPHY.**

Andrea Trubetskoye is a professional contractor, home builder, master craftsman, dynamic entrepreneur, educator, and inspiring influencer and generous philanthropist. As one of Toronto's and Ontario's most trusted contractors, his no-nonsense approach has impressed many home owners and business leaders. Through Mariposa's business growth and endeavors, Andrea has led Mariposa to earn a reputation as being among "The GTAs Most Trustworthy Contractors within the BUILD Toronto society" with also evolving the company's sense of credibility to be recognized as second to none!

Andrea Trubetskoye has played a major role in transforming Mariposa into a provincial and municipal brand that succeeds based on consistently maintaining quality, integrity and trust.

With over 35 years of experience as a professional licensed contractor, he has completed over 300 home renovations and remodeling disaster projects, while also building over 220 homes across the Greater Toronto Area and southern Ontario. Therefore, Andrea's strong reputation and innovative leadership over a award-winning company, has enabled him to frequently conduct public engagements that have become greatly appreciated.

Andrea Trubetskoye guarantees that Team Mariposa will deliver the results that you most desire for your residential, commercial, or industrial property improvement project.

# FAQS

## mariposa painting & decorating

ETOBICOKE, GTA

## FAQs in relation to Sherwin-Williams products.

**Reality is reality in the making of decisions and accountability for actions. Essentially, Mariposa Painting & Decorating Canada without question is an ecologically respectful and efficient company.**

**Question:** What should I look for in a good painting and decorating contractor?

**Answer:** Ontario requires painters, decorators, and all contractors in general, to have a current business license in good standing. So should you! By choosing to hire Mariposa Painting & Decorating Canada, you are choosing a well established, well experienced, and credible company with painters and decorators who are licensed and certified professionals.

**Question:** Why do I care if my painting and decorating contractor uses "high quality" paint? I thought all paints were the same?

**Answer:** As with any type of painting and decorating project, including repair materials, the better the quality, the better the results. Because Mariposa uses the most trusted suppliers, such as Sherwin Williams Canada, the company's completed work will not only look better, Mariposa will guarantee quality assurance. Mariposa offers a 5 Year Warranty based on confidence in Sherwin Williams paints and stains. Sherwin Williams paints and stains will be able to handle the tests of time; including just every day wear and tear. As a client of Mariposa, you will receive what you pay for, and cheap, inferior, or low quality paint isn't worth the investment.

**Question:** Why would I hire Mariposa as my painter and decorator?

**Answer:** Begin by asking other people who have used our painting and decorating services. If you see a neighboring home or business that has been painted and decorated by Mariposa, inquire if such client is satisfied with the results. You'll still want to interview a few other painting and decorating companies as you receive other quotes. Keep in mind, the ultimate goal isn't the cheapest rate; it's the best value. That means high-quality products and services offered by Mariposa end with the result that you most desire for a reasonable rate of cost.

**Question:** Does Mariposa provide advice for paint colour selection?

**Answer:** At Mariposa, we offer a free consultation which can include discussing colour options. Ultimately, it's up to you or your designer's or architect's guidelines, although we are more than assertive to offer decorative advice and suggestions.

**Question:** What are different paint sheens?

**Answer:** There are several different types of paint sheens including high gloss, semi-gloss, satin, eggshell, and flat or matte. Each one has its benefits and the place in your home or business will require what is appropriate. At Mariposa, we'll help you understand each sheen, and to make the right choice for inside and outside of your home or business.

**Question:** What should I do to prepare for a painting project?

**Answer:** The Mariposa Project Management Coordinator will take care of most of the preparations for the home or business painting project, including the organizing of project space and working areas. Although, there are some preparations that will be required of you. Such as, remove wall hangings and anything decorative on, or nearby walls that could get in the way or damaged. At Mariposa, we appreciate that our clients can make it easier for our painters and decorators to move around by removing furnishings or obstructions. Make arrangements for children and pets, to not interfere with the project space and working areas if possible. Please don't hesitate to discuss with our consultants and project management coordinator on any other issue that you would like Mariposa to address.
