As we usher in a new year, the collective mood is upbeat and hopeful. You can realize it everywhere, from popular culture to art and design. While contemplating this optimistic shift, myself and my team decided it was the right time to devote creating a spectrum of products and services that cater to the concept of the Ultimate Address.

What does this mean, exactly? For many aspects, our products and services for the ultimate address across Canada, consists of the finest quality and exceptional standard that is by far the best choice and reasonably priced.

All of our efforts to deliver the finest and exceptional products and services adds up to a prescription for living the good life, a notion many of us desire to embrace and aspire to for comfort and elegance throughout the home.

Thank you for your interest,

Janice Barenger

LUXURY CONCEPTUAL DESIGNS — TURNKEY RESIDENCES — HOME MAKEOVER

ULTIMATE ADDRESS

Janice Barenger

The conceptual designs of Janice Barenger are practically synonymous with luxurious decorum and home makeover. Moreover, Janice's designs decode a lifestyle that is highly regarded amongst the biggest names in architecture and interior design. Behind every accessory and piece of decorum is a carefully thought-out concept that aims to establish connections between the home and the owner.

This attention to detail began in 2016, when Janice Barenger, a Premier Designer of Mariposa Conceptual Design Canada, launched the Janice Barenger brand with a decorum collection made of renewable natural fiber pieces. Janice continues to combine technology and craftsmanship under the roof of her studio in Etobicoke, Ontario, with the Mariposa Decorum Design and Manufacturing facilities in Milan, Italy, and in Guelph, Ontario. Janice's collection of decorum consists of quality, elegance and impeccable finishes that make the conceptual designs true displays of desire.

JANICE BARENGER

ULTIMATE ADDRESS

Designed and manufactured in Milan, Italy.

Located in Milan, the heart of design and manufacturing operations of Mariposa, our factory boasts a 850,000 square-foot self-sufficient production system (without third-party intervention). This facility is responsible for developing, crafting and maintaining the demanding quality standard that makes the Janice Barenger brand among the finest.

Adopting exclusively raw materials certified by industry efficient standards, the manufacturing process involves various stages, from the frames of the furniture to the upholstery and finishes, integrating manual work and technology according to the design and function of each piece.

The unique feature of decorum within the Janice Barenger Collections is achieved by the union of modern and traditional such as high-tech designs and custom-built pieces, hand-held tools and large manufacturing machinery.

ULTIMATE ADDRESS

The daily experience of the Janice Barenger brand.

For the past seven years, Mariposa's Premier Designer Janice Barenger has striven to create masterfully designed and technologically advanced kitchen and bathroom conceptual designs. By recognizing that the artistry of Janice Barenger, Mariposa's design and manufacturing capability in Milan Italy, is as crucial to offering the finest quality kitchen and bathroom cabinets, counters, hardware, faucets, and all other kitchen decorative elements that are truly unique and endure the test of time. The result of Janice Barenger Kitchens brand philosophy is translated into bespoke creations that perfectly match the preferences and tastes of the most discriminating clientele.

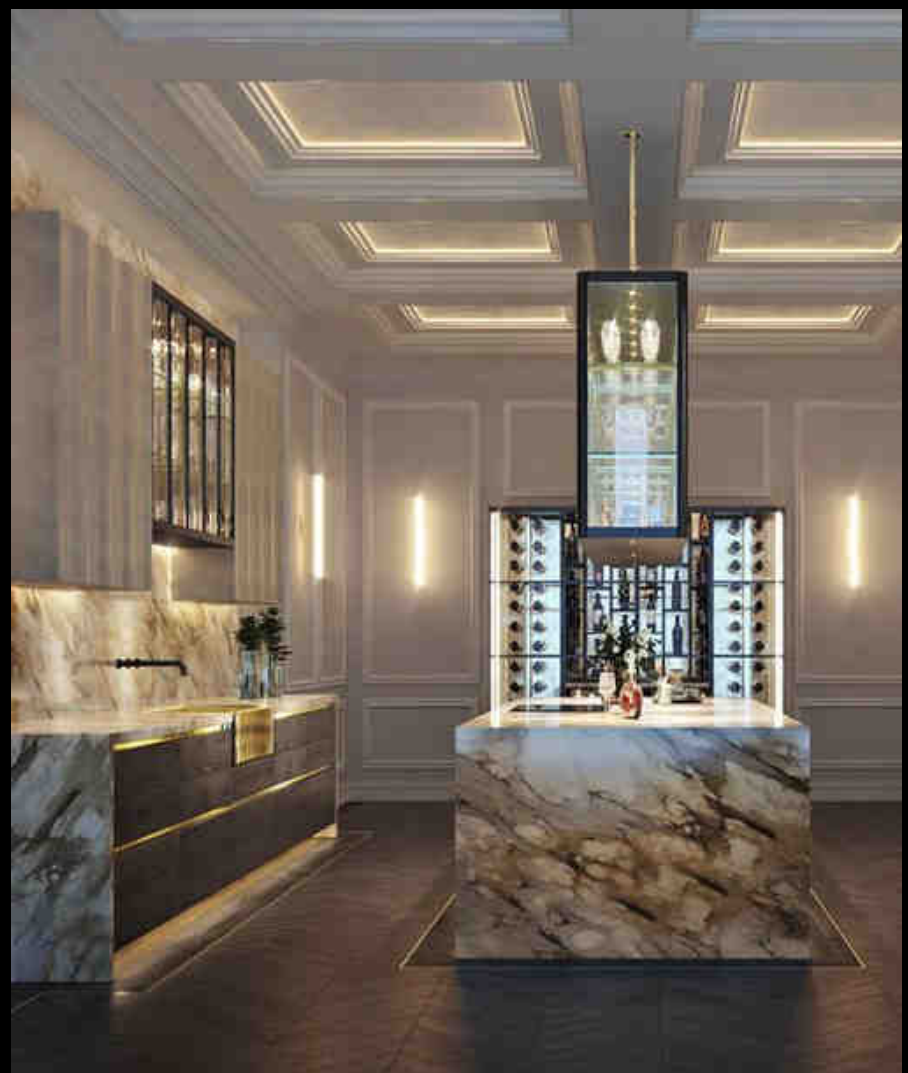

Since 2016, at the Mariposa design and manufacturing facility in Milan Italy, Janice Barenger has been producing the finest kitchen and bathroom design components and featured elements on the market. Through the years, Mariposa with its operations in Milan Italy, has assembled a remarkable team of design engineers, technicians, master craft carpenters, finishers and artisans who together have enabled Mariposa to become one of the leading manufacturers in the property improvement and development industry sectors.

Janice Barenger Kitchens & Bathrooms is offered in hundreds of possible colour and finish combinations that can be used to create one of a kind conceptual designs. Each kitchen design project is the result of years of experience and product research combining traditional craftsmanship with the latest innovative thinking processes to create the most functional and stylish kitchens and bathrooms available on the Canadian market.

JANICE BARENGER NEW CUSTOM HOMES

Client Consultation

Beauty is vital to a custom-built home –although so is day-to-day function. Sometimes it's less about size and space and more about versatility. Janice Barenger and her team understands the specific needs of clients, which is why they take client consultation so attentively. Janice Barenger sits down with every member of the family personally, to understand how best to accommodate their needs. Are they left- or right-handed? Tall or petite? Who controls the remotes? Janice Barenger strives to build a home that not only meets the preferences of each individual member, although also enhances their unique lifestyles. Janice Barenger challenges convention and redefines tradition to come up with conceptual designs that make living easy. In this sense, a custom-built home by Janice Barenger will suit you like no other can.

Janice Barenger's Homes in Halton Hills.

Welcome to

JANICE BARENGER HOMES HALTON HILLS

*Experience the luxury of
Janice Barenger.*

The Ultimate Address in Halton Hills, Halton Region, Ontario, Canada.

There are 23 large mansion homes that are currently being developed on one of the larger building sites that are situated in luxurious communities that are being created by Mariposa Homes Canada in Halton Hills. The main three-story formal block of the houses stretch across the width of each property site. A service court to one side, with five garages and two staff flats, connects to a pool and leisure suite extending down the garden.

Inside is a magnificent three-story entrance foyer, stairs and hall leading to formal dining room, drawing room, library and study. There is a large informal kitchen/family room and sunroom opening onto the garden and in the garden wing a cinema room, gym and pool. On the first floor are a spacious master bedroom suite and 5 further spacious bedrooms. In the attic are two further guest or children's rooms and a large attic playroom. The house is finished in Chantilly Lace colour by Benjamin Moore Canada. The pool is entirely glazed on two sides with a copper clad roof.
